SRI S. M. KRISHNA. –Well I can furnish the answer to the hon. Member if a separate question is put. Even if he does not put, I will convey the figures as to what exactly the scrap requirement of the Company is and what is generated in the Company.

SRI ABDUL KHUDDUS ANVAR. - is this skull scrap a regular product of the MISL factory ? Will the Hon. Minister kindly see that it is taken outside the factory, broken there, reweighed and then brought back to the factory ? I have given this suggestion for the last two years. Actually the skull scrap broken is only 360 tonnes whereas the payment made is about *Rs.* 42 lakhs.

SRI S. M. KRISHNA :—The company authorities find that there are a number of difficulties in allowing this skull scrap to be taken outside the premises of the company and again brought back and fed into the open hearth. Physical verification becomes very difficult and there has been very keen competition in that area for breaking this skull scrap and again feeding it back to the company. If the Hon. Member has any suggestions in this regard, we will consider it. I shall invite the Hon. Member for discussion and we shall thrash out this problem.

SRI ABDUL KUDDUS ANVAR :—My suggestion is .....

MADAM SPEAKER.—If the Hon. Member has any suggestions, he can go to the Minister's chamber and give them to him.
